!!!! ATTENTION ATTENTION !!!! NEW HOMEPAGE ONLINE We are ready for the autumn and winter season with something new, something big for us that has been under work for the past months: a new Homepage.

The Parvati Platform is now totally restyled.

There is a Blog so it will be possible to keep up with what is going on at the Label, and participate to its life with comments and critics.

It is now possible to download all our released tracks in different formats (wav, flac, mp3)

Signing in for membership will give you access to different features and periodic free downloads and newsletters. In fact there will be already a gift for you as soon as you sign in and become a member of our Community !

We hope you will like the new homepage and that you will find it easy to navigate. Please feel free to comment and give us your first impressions.
