SHIFT - NEXUS MEDIA, TIMECODE RECORDS - SOUTH AFRICA

Since his first release in 2001 sHiFt has worked with some of the biggest and the smallest labels in the scene giving him access to more listeners and opportunities to experiment with the direction and structure of his sound and arrangement. To this day he has released nearly 200 tracks in his various forms as sHiFt, Twisted System, Pitch Hikers, and Mantis.

A recognized DJ and Live performer he has toured every continent. His sound ranges from powerful & melodic twilight full-on, to twisted night psy-techno. His 4th solo album "alternator" has thrashed dance floors around the globe, and his last compilation Midnight Storm III shows his excellent remix and team production skills; but now expect some big new blasters from this psychedelic phenomenon as sHiFt rips into the space between your ears!
