ESP invites you to a very special event showcasing the forthcoming 'Way of the sloth' album with a 1.5 hour live set from Australia's very own SENSIENT!

The head of Zenon Records needs no introduction!

SENSIENT

Sensient is Tim Lerner from Melbourne, Australia. His music is deep, intelligent, progressive and absorbs the influence of many other musical styles (minimal, techno, breaks, glitch, jazz fusion) He has released 4 solo albums plus many compilation tracks on respected labels like Iboga, Plusquam, Flow, Plastik Park, Tatsu, ZMA and more. He also has made remixes for some of the big names in the scene including Ace Ventura, Perfect Stranger, Shiva Chandra and BigWigs. In 2003 Sensient created Zenon Records which has now developed into one of the world's best and most respected psytrance labels. Zenon has formed an entire musical movement which has heavily influenced the Psytrance Music/Festival scene worldwide. Sensient has played at some of the biggest international festivals including Boom, Ozora, Voov, Universo Parallelo, Glade, Rainbow Serpent, Sonica, Fusion and more.

'Way of the sloth' is a work of art and we welcome Sensient to the stage to take us on a unique journey through the depths of his sound.

HEDONIX

Hedonix is a Sydney based Psytrance group consisting of Robert Dilley and Steven Zanuttini. Both of us are qualified sound engineers and long time participants in the Australian psychedelic trance scene. We started the Hedonix project in 2001 with the intention of bringing a unique flavour to the world of psytrance and since then our highly original sound and versatility has seen us released on various record labels specialising in a diverse range of music such as Electric power pole, Cosmic Conspiracy and Vertigo as well as landing us bookings for live performances all over Australia, Japan, Europe, Israel, Brazil, New Zealand and elsewhere.

The style of our music ranges from early night time psychedelic minimal and dark progressive to funky, quirky, melodic morning madness with a classic goa influence. But we are primarily known and regarded for our early night sets which are described as chunky, groovy, intelligent, twisted and full of surprises.
