L I V E :

- JIKOOHA (Jap)

Playing for the first time in Europe!

Tokyo-based trance outfit Jikooha comprises two Japanese, Jun and Shimodi, who played in a punk and new wave influenced alternative rock band in early 1990s. In 1996, they found the sound of Goa Trance that led them to form Jikooha in 1997 and started to produce their own trance tracks.

While remained committed to their unique mixture of dance and punk, Jikooha's eclectic and unique sound shows their love of all music. They are experimental, sometimes excessively so, in taking in different sounds and styles from myriad of "genre" in their production; the process they believe is their search for spiritual journey.
