i am goapal from belgium

i mix essentially goa since late 2014 but used to mix drum n bass before that :)

started mixing around 2005 till 2009/10 on turntable then had a pause till summer 2014 and the BALKAN GOA FANATICS in zagreb... best festival EVER. no words to explain the vibe there it was simply magical

anyway as this is a short presentation i ll stop now or else, i know me, i might start making damn wall of text :p
